IMPROVED AMERICAN MEAT AND VEGETABLE CHOPPER.

The old Chopping-knife and Tray are fast becoming relics of the past. Something to relieve the weariness of their use in preparing the various articles of food which require chopping—such as sausage meat, mince meat, salads, hash, fish, fruit and vegetables of various kinds—has come to be considered an absolute necessity, as well in private families as for hotels, restaurants and public institutions where large quantities of food are required.

With the Improved American Chopper a child six years of age can cut as much meat, in three to four minutes, as can be cut in an hour with the old Chopping-knife and Tray.

More than 100,000 of these Choppers are now in use, and they have stood the test of constant wear for eight years. The annual sales have already reached an aggregate more than four times that of all other Family Choppers combined, and the demand is constantly and rapidly increasing—facts which sufficiently attest their superior merit as well as their practical utility. They are the only family choppers yet invented that have proved a universal success.

American Meat Chopper.

FAMILY SIZES.

NO. 4.

8-inch Cylinder. Weight, 14 lbs. Price $5.

Cuts 5 lbs. in three minutes.

NO. 2.

10-inch Cylinder. Weight, 21 lbs. Price $7.

Cuts 5 to 6 lbs. in three minutes.

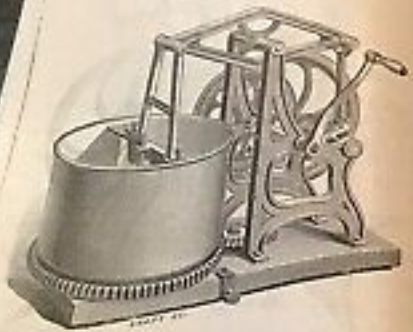
A case of six No. 1, packed ready for shipment, weighs 120 lbs.

A case of six No. 2, packed ready for shipment, weighs 190 lbs.

The principal working parts are made of the BEST MALLEABLE IRON—rendering a breakage impossible by any ordinary or reasonable usage.

American Meat Chopper.

BUTCHERS' SIZES.



No. 4. 15-inch Block. Price $25.

Cuts from 60 to 75 lbs. an hour.

Weight, when crated ready for shipment, 120 lbs.

These Choppers will do more work, and require power, than any others yet invented. They ***GRIND*** *or* ***TEAR*** *the mea[t] it [i]s—a process extremely d[e]—but* ***CUT*** *it evenly and*

American Meat Chopper.

BUTCHERS' SIZES.

No. B. 18-inch Block. Price $50.

Cuts from 80 to 100 lbs. an hour.

Weight, when crated ready for shipment, 275 lbs.

No. 5. 20-inch Block. Price $60.

Cuts from 100 to 125 lbs. an hour.

STARRETT'S DOMESTIC PRESS.

FOR THE USE OF

Families, Hotels & Restaurants

IN PRESSING

Corned Beef, Boiled Mutton, Tongue, Boned Turkey, Head Cheese, and other Meats.

And in extracting the juice from fruit and berries, for making

DOMESTIC WINES, GRAPE & CURRANT JELLIES &c.

ALSO FOR PRESSING

LARD, COTTAGE CHEESE, SCRAPS, TURNIP & OTHER VEGETABLES.

Corned beef, tongue, boiled chicken, and all meats designed to be eaten cold, are greatly improved by being pressed, as a single trial will serve to demonstrate. The meat should be placed in the press while hot, the fat and lean in layers, and be allowed to remain under pressure until thoroughly cooled. Meats thus treated retain their juices, have a more delicate flavor, and when wanted for the table, can be served in a style otherwise quite impossible.

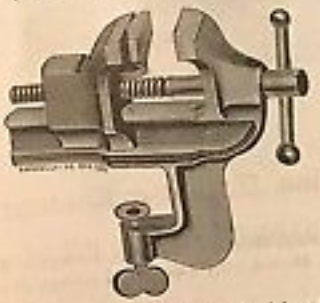
No. 1. Size

Amateur Vises.

THE BEST VISES EVER MADE FOR THE MONEY!



These Vises are unsurpassed, either in material, workmanship or finish, by any first-class vise in market. They have **Steel Jaws** and **Wrought Iron Screws**, cut from solid stock, with polished head and handle.

No. 62 has a **Steel Swivel-Jaw Attachment** as shown in cut, which is a great convenience in holding tapering or irregular work, and is the **CHEAPEST VISE** ever seen in this or any other market.

Jaws open. Weight.

Farmers' Vise.

These Vises are designed to meet the large and growing demand among Farmers and others for a **CHEAP, STRONG** Vise, and nothing equal to them in quality and price has ever been put on the market.

They are made from the best of material, have hardened steel jaws, and are proportioned for the greatest possible strength for the size of the vise, while in workmanship and finish they are not surpassed by any of the high-priced vises

AMERICAN

MEAT & VEGETABLE CHOPPER.

FORT SIDNEY, NEB.,
February 24, 1881.

Gentlemen:

I have the honor to request that you forward to my address, per mail, Crank and Pitman, to Shaft, to connect with walking beam of No. 3 Beet Machine, of your manufacture, and upon receipt of same I will forward payment.

The Machine has been in daily use for nearly four (4) years, doing work for a Company of fifty (50) men, and is in as good order as when received from the Factory, with the exception of the parts named, which have become worn for want of oil and proper care.

Very respectfully

Your ob't servant,

W. C. FORBUSH,
Capt. 5th Cavalry,
Comdg. Troop "L."
